APPROVED

SCHOEN, Daniela

The IOC approves External Users with Multi-Country Use by Suppliers as follows:

a/ Product Scope: certain products from Design/Engineering Product Portfolio (HONDA Designer PKG (MES+TAD+MMO+DEY+TEO+VRR+SUM+SFO) or Minimum PKG (MES+TAD))

b/ Multi-Country Use: Brazil, China, India, Japan, Thailand, United States

c/ Licenses are installed at customer's premises in Japan

d/ the quantity of licenses accessed by Guest Engineers is limited to

- Outside of Japan: Max 25% of IB
- Japan only: Max 25% of IB and Max 250lic

e/ Uplifts: WW use (3region) = w/100% uplift

f/ Guest Engineer, authorized subcontractor whose usual workplace is Honda premises, access VDI managed by HONDA on MS Azure from Guest Engineer's own premise and/or their home using Honda's dedicated Machine and connected through VPN

g/ the quantity of licenses accessed by Guest Engineers is limited to 1 per supplier (list to be provided by Honda)

h/ customer shall provide reports on license use by each supplier, with product names and quantities of licenses, on a quarterly basis; otherwise he would lose the right to provide Guest Engineer with an access to the licenses.

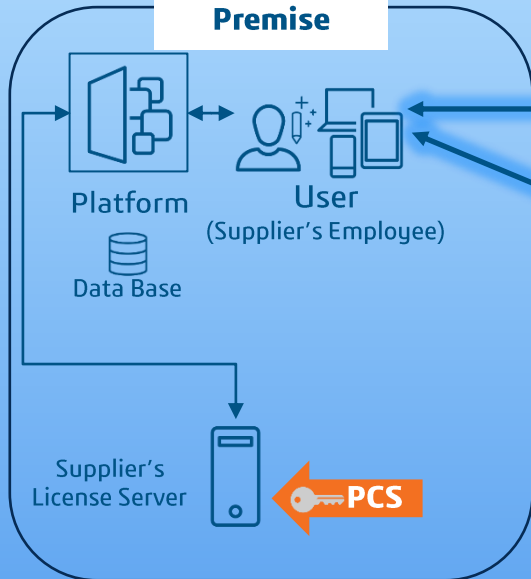

# Honda 3DEXPERIENCE Supplier Collaboration Overview

## Supplier Work Env.

*Supplier is working for themselves in Supplier's env.*

Supplier can use DS License for Supplier's own work with "PCS" purchased by Supplier.

### Supplier Premise

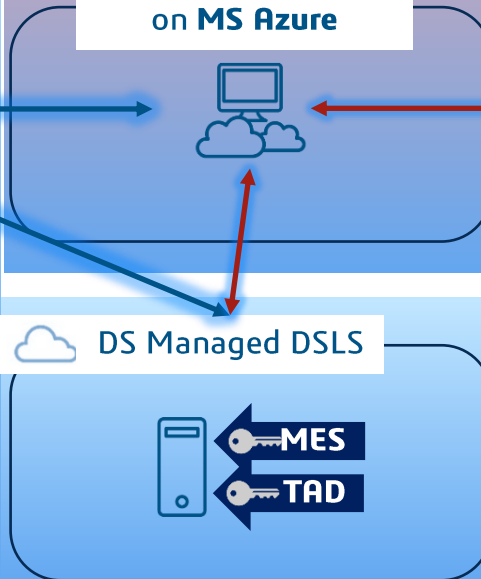

## HONDA Work Env.

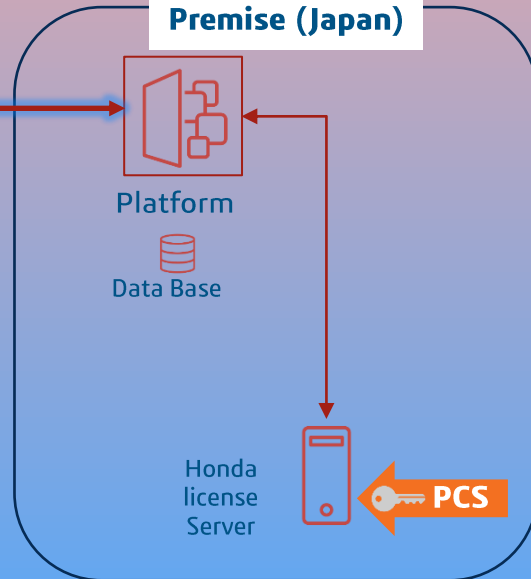

*Supplier is working for HONDA in HONDA's virtual env.*

HONDA allow direct access from Supplier to HONDA's 3DEXPERIENCE platform remotely to collaborate for efficient product development with new development flow.

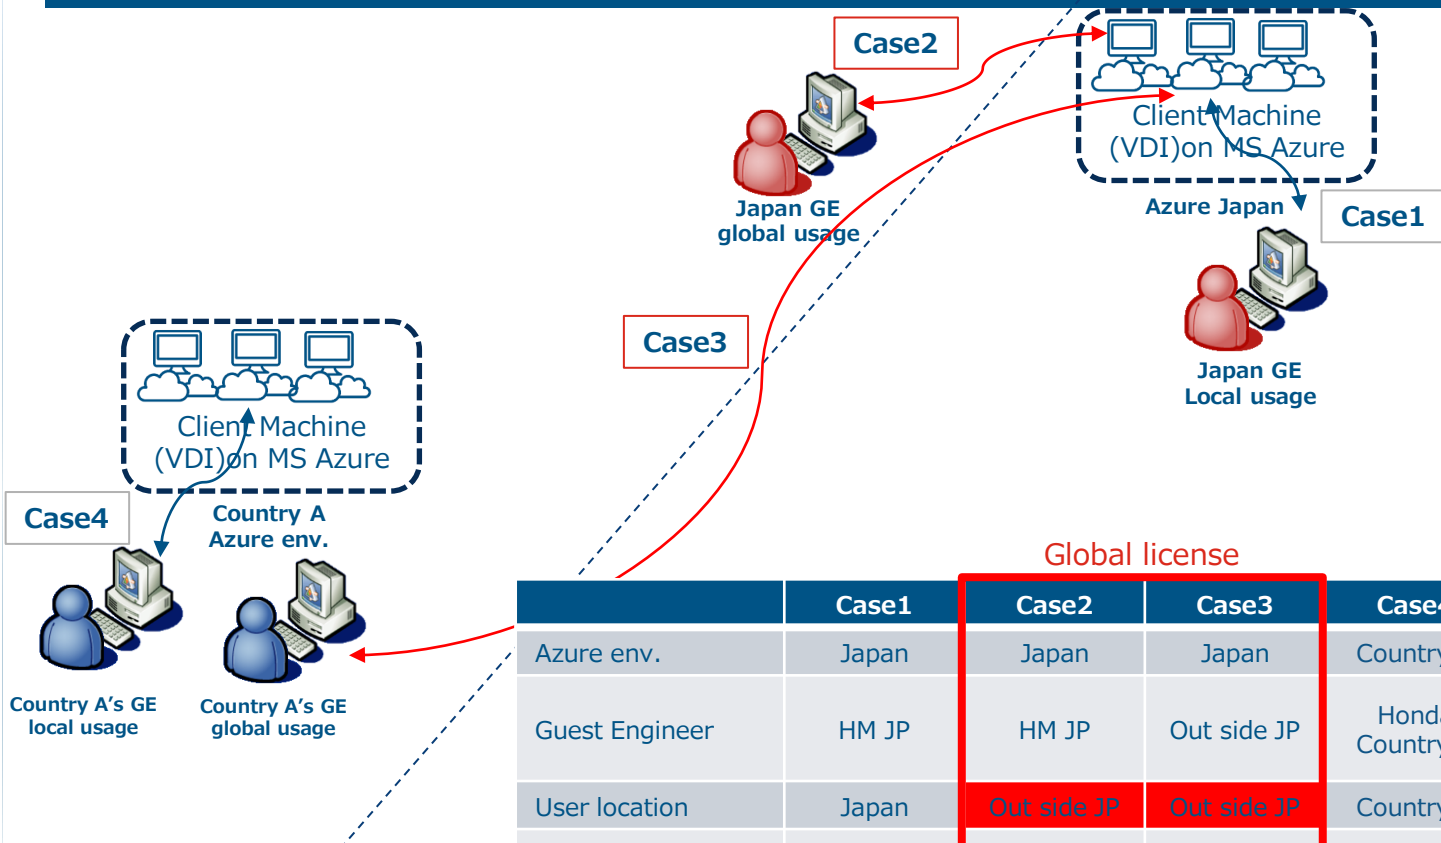

### Client Machine (VDI) on MS Azure

### Honda Motor Premise (Japan)

# GUEST ENGINEER USAGE

	Global license					
	Case1	Case2	Case3	Case4	N/A	N/A
